SUMMARY

Back-End Developer and two-time ECPC Finalist with strong expertise in C#, ASP.NET Core, SQL Server, and RESTful API development. Experienced in building scalable backend systems using Clean Architecture principles, Authentication & Authorization, and Entity Framework Core. Passionate about problem-solving, software engineering, and developing maintainable real-world applications. Currently seeking a backend development role or internship to leverage technical skills in a fast-paced environment.

SKILLS

Backend Development: ASP.NET Core, RESTful APIs, Entity Framework Core, Clean Architecture, Authentication & Authorization (JWT)

Programming Languages: C#, C++, C, Python, JavaScript

Database: Microsoft SQL Server

Concepts: OOP, Data Structures, Algorithms, SOLID Principles, LINQ, Agile Methodologies

Tools & Version Control: Git, GitHub, Swagger, Postman

Familiar With (Frontend): HTML5, CSS3, JavaScript

Soft Skills: Problem-Solving, Team Collaboration, Mentorship, Analytical Thinking, Effective Communication

Spoken Languages: Arabic (Native), English (Professional Working Proficiency)

EXPERIENCE

ICPC Community at Qena National University

Mentor & Instructor

- Mentored university students in advanced problem-solving, algorithms, and data structures for competitive programming.
- Assisted trainees in significantly improving their coding efficiency and analytical thinking skills through code reviews and practice sessions.
- Organized and supported technical activities and programming workshops within the university community.

Ischool

Coding Instructor

- Delivered engaging programming and computer science lessons, focusing on foundational technical skills and logical thinking.
- Guided students through hands-on projects, providing constructive feedback to improve their coding efficiency.

EDUCATION

Qena National University

Faculty of Computers and Artificial Intelligence

B.Sc. in Computer Science — Expected Graduation: June 2026

PROJECTS

Wareed – Blood Banks Management & Donation System

Backend Developer

- Developed scalable backend services and RESTful APIs using ASP.NET Core and C# to support a Flutter mobile application dedicated to managing blood banks.
- Applied Clean Architecture principles to build highly maintainable, testable, and modular application layers.
- Designed and optimized SQL Server databases for efficient donor record retrieval, blood inventory tracking within banks, and handling emergency requests.
- Implemented secure Authentication & Authorization (JWT) mechanisms for different user roles (donors and administrators).
- Collaborated seamlessly with the frontend and development team using Git and GitHub workflows.

Technologies: C#, ASP.NET Core, SQL Server, REST APIs, Clean Architecture, GitHub

Repository: github.com/Hosam-Sherif/WareedApp

Mazaad – B2B Auction Platform (DEPI Graduation Project)

Backend Developer

- Engineered backend APIs and robust business logic for a commercial B2B auction platform using ASP.NET Core and C#.
- Designed optimized SQL Server relational database schemas for handling complex auction listings, real-time bids, and business profiles.
- Implemented automated auction lifecycle and secure bid tracking systems.
- Applied Clean Architecture to ensure system scalability and maintainability for future feature expansions.

Technologies: C#, ASP.NET Core, SQL Server, REST APIs, Clean Architecture, GitHub

Repository: github.com/Hosam-Sherif/DEPI-GP

Student Clearance System

Backend Developer

- Developed a university clearance management system to automate and streamline student clearance workflows across multiple departments.
- Built reliable backend APIs and database operations using ASP.NET Core and Entity Framework Core.
- Improved process efficiency by replacing manual paperwork with secure, traceable digital workflows.

Technologies: ASP.NET Core, SQL Server, Entity Framework Core

Personal Portfolio

Frontend Web Developer

- Designed and developed a fully responsive personal portfolio website to showcase backend projects and technical skills.
- Implemented interactive UI components and optimized loading performance across multiple devices.

Technologies: HTML5, CSS3, JavaScript, GitHub Pages

Live Demo: hosam-sherif.github.io/Portofolio/

CERTIFICATIONS & TRAINING

- **Digital Egypt Pioneers Initiative (DEPI)** | *Full-Stack Web Developer Track Graduate*
- **Route Academy** | *Backend Development Diploma*
- **Net Arabia** | *WordPress Developer Intern*

ACHIEVEMENTS

- **ECPC Finalist:** Successfully qualified and competed in the Egyptian Collegiate Programming Contest finals (2024, 2025).
- **ECPC Contestant:** Participated in 3 consecutive ECPC regional contests, demonstrating strong algorithmic problem-solving under time pressure.
